

## K-BLADE 125 TECHNOLOGY

The Keeway K-Blade 125 packs modern performance and styling into one ultra-sharp package. It's 124cc, two-valve, four-stroke single-cylinder engine featuring SOHC and C.D.I. injection, FCC automatic CVT gearbox, smooth suspension, and 14-inch wheels makes the K-Blade 125 the perfect tool to cut down your daily traffic.

### Reinforced Shock Absorption System

The telescopic coil spring oil-damped rear suspension provide superior feel

### Twist And Go

The PCC automatic CVT gearbox seamlessly puts the power of the four-stroke, two-valve single to the pavement

### No Detail Overlooked

Massive 10-liter helmet storage, USB charger, and other niceties make the K-Blade 125 the perfect two-wheeled companion

### Sharp Scooter, Plush Ride

The smart ergonomics and comfortable seat are designed to keep you riding all day

### Fully Digital Display

The large LED dash offers everything you need at a glance

### Powerful LED Lights

The all LED lighting system pierces through the night and turns heads during the day

### Telescopic Front Forks

The K-Blade's front fork glides over city roads and offer 82mm of travel

### 14-Inch Rims

The large diameter 14-inch rims and tires easily roll over bumps and provide outstanding stability

### Euro 3 Emissions

Environmentally friendly four-stroke SOHC engine meets strict Euro 3 Emissions standards

### Side Stand Switch

The K-Blade safely and conveniently triggers engine flameout when the side stand is lowered into its parked position

### Stop And Go

This scooter puts its rider in control with its powerful 220mm front disc brake and 130mm rear drum
