Upgraded backpack system to effectively disperse shoulder pressure

Inverted triangle, wide at the top and narrow at the bottom.
Fit the curve on the back of the bod to reduce pressure.
S-style shoulder straps relieve shoulder and neck stress.
Even carrying the backpack for a long time, you feel relaxed.

* Molding in one shock absorption EVA foam.

Rhinowalk®
FOCUS ON BICYCLE BAGS

HUMANIZED STRUCTURE

Practical and stratified Storage, Make travel less of trouble

The front pocket is convenient for storing personal belongings;
The main pocket consists of multiple insert pocket and water bag bins,
You could hold portable air cylinder, cell phone and wallet, glasses, umbrella, cycling clothing etc.The water bag bins can put 3L and below size water bag, suggest you to use 2L water bag.

*Remark: Inner lining of black backpack is black; inner lining of rose red backpack is light gray

* Fit body and curved design to reduce weight

* Belt and chest buckle are strong.
