Abrasion Resistance PE Line

Imported PE Raw Silky/Easy Cutting Water/Abrasion Resistance Smooth/Super High Energy

8 weaves Blue/Gray/Green/Red/Yellow

8W

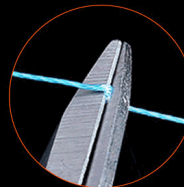

SUPERB CRAFTSMANSHIP

Resistant to a variety of physical attacks

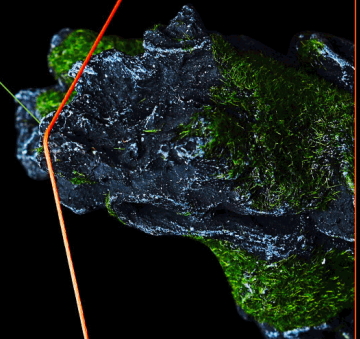

Increase the service life of fishing line

Abrasion Resistance Test

Many Times
Repeated
Friction

Scissor damage test
Excellent wear resistance

4 WEAVES < 8 WEAVES < 9 WEAVES

Good performance.Stronger pulling.Abrasion Resistance.More Easy Cutting Water

4 WEAVES

Generally used for hand rod
Abrasion Resistance
Easy Cutting Water Anti-bite

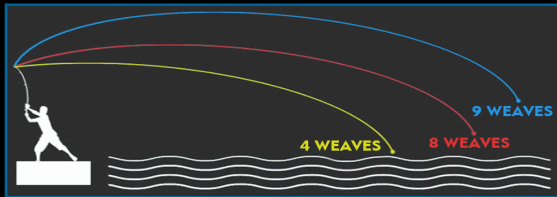

8 WEAVES

Cross section is more flat than 4 weaves
Abrasion Resistance,
Smooth and pulling drag is better,
normal used for spinning
and telescopic fishing rod

9 WEAVES

More Abrasion Resistance,
stronger and smoother,
throw more farther,
More Easy Cutting Water,
usually as main line
for Rock Fishing Rod

**Far
Away
Throwing**

The throwing distance is mainly based on the resistance of the fishing line and wind speed effect on the line.
9 weaves PE Line is tightly woven, high smoothness, throwing far away.

SUPERB CRAFTSMANSHIP

New upgrades with interspersed seamless weaving technology

To enhance the line density and performance
